g. It shall be incumbent on every officer to exhaust every reasonable means of employing only that amount of deadly force necessary to accomplish the purpose. Initial RJS

h. Where feasible, a verbal warning shall be given to the offender prior to the use of deadly force.

Initial RJK

i. Once the immediate danger of death or serious bodily injury to an officer or another person has passed, deadly force shall not be used. Initial RJK

j. To the extent an officer has reasonable time for consideration, he shall never use deadly force which creates a greater risk to self and others (such as hostages, bystanders, and other Deputies) of death or serious bodily injury, than if he did not use such deadly force. Initial RJK

Initial RJK

l. A Carotid Neck Hold is considered to be deadly force even if the only objective is to induce temporary unconsciousness. This application of force is also referred to as a carotid neck restraint or a carotid chokehold. Regardless of the name used, it is described as the application of force or pressure to the neck or throat of the suspect. This technique is unauthorized except in situations where the officer would be justified in using deadly force against an individual. Initial RJK
